This tour will explore legislative policy, economic development, and other opportunities to promote access to healthy food systems, high-quality jobs, destination/heritage tourism and the preservation of prime agricultural land. It will also allow participants to discuss agritourism on national, state, and regional levels.

Today's Menu ✨

AGRIBURBIA®

Agriburbia® Development LLC is a fully integrated real estate development firm that focuses on resilient agricultural lifestyle communities. Their goal is to establish and support metropolitan suburban communities that integrate agricultural development concepts, local integrity, and healthy lifestyles. For more Information, visit agriburbia.com.

Berry Patch Farms is certified organic by the USDA and has been in business since 1991, and pick-your-own since 1994. It is a working farm—40 acres in size—that includes animals, produce and a store. Berry Patch Farms offers community education for both children and adults. For more Information, visit berrypatchfarms.com.

Three Leaf Farm is an organic farm, opened in 2011, that provides fresh produce to six restaurants in the Boulder area, as well as to the community in local farmers markets. Three Leaf Farm aims to bring organic produce to others without raising prices. The farm is also committed to creating self-sustaining agriculture and an environmentally-conscious lifestyle. In 2012, they received the Nature's Plate Award from the prestigious Nature Conservancy for the "greenest" restaurant in Colorado. In 2013, Three Leaf Farm was honored with the Lafayette Heritage Award for preserving the agricultural spirit of Lafayette. For more Information, visit threeleafarm.com.

The Greenhouse District is a for-profit social enterprise headquartered in Byers, Colorado that seeks to improve local economic wealth through application of technology to create "greener greenhouses" that increase local food production at affordable prices. For more Information, visit greenhousedistrict.com.

The Local Foods Campus is an incredible new partnership created to bring about a strong and sustainable regional and local food hub. Creating vibrant local food companies and supply chains, and providing access to ensure affordable, healthy, and local food to Colorado Front Range citizens are the top priorities of the project. The Local Foods Campus positively impacts the community through education, farming, food distribution, and food production. We all need to eat, and the Local Foods Campus will inform and educate us about the delicate interconnectedness of food, community, economy, and the environment. For more Information, visit localfoodscampus.com.
